

➤ GCP for Data & AI - Tips

Being part of the Data & AI studio implies being able to work with most of the cloud providers. For GCP, we strongly recommend you to follow these paths to be eligible for the best GCP projects at Globant:

1. [Associate Cloud Engineer Learning Path](#) → introductory
2. [Data Engineer Learning Path](#) → Data engineering specific

Additionally, obtaining certifications has the following advantages:

- Be up-to-date with latest services and features
- Be eligible for the best GCP projects
- Be able to share this in social media (Linkedin/etc)
- Request official Google merchandising (jacket, speaker, backpack, depending on the season)
- Globant is a premier partner from Google. Each new certified individual helps in our relationship

It is usually recommended to start with the [Associate Cloud Engineer certification](#), unless having 2/+ years of experience with GCP. Then, go with the [Professional Data Engineer certification](#).

> GCP - Vouchers requests

GCP vouchers are **100% free** for Globers. Mind that before being able to request one, you must meet certain prerequisites.

- Fill [this form](#) **only once** per each specific certification that you want to give. **Validate the prerequisites** included in the questions. Focals might contact you if some data is invalid.
- Vouchers will be provided **once a week**, so please be patient.
- Check out the [official deck](#) to validate how to redeem vouchers and prepare the certifications.

➤ AWS for Data & AI - Training Resources

Being part of the Data & AI studio implies being able to work with most of the cloud providers.

For AWS we have the benefits as being part of their partner program. To log in you can follow this [guide](#)

For AWS, we strongly recommend you to follow Data Analytics Path to be eligible for the best AWS projects at Globant:

1. [AWS Certified Cloud Practitioner](#)
2. [AWS Certified Solutions Architect – Associate](#)
3. [AWS Certified Data Engineer - Associate](#)

Additionally, obtaining certifications has the following advantages:

- Stay up-to-date with the latest AWS services and features.
- Be eligible for the best AWS projects.
- Share your achievements on social media (LinkedIn, etc.).
- Request official AWS merchandise (jacket, speaker, backpack, depending on the season).
- Globant is a premier partner of AWS. Each new certified individual helps strengthen our relationship.

> AWS - Vouchers requests

For requesting AWS vouchers, please contact the focals mentioned below (check out [AWS Learning Paths & Certifications](#)).

Additionally, if you are willing to help with AWS studio initiatives, mostly focused on Gen AI and machine learning, feel free to ask the focals about associated information.

> Snowflake

Globant is part of the **Snowflake Partner Network**. This gives us access to many resources like education services, trainings and exam preparation. Snowflake also offers a series of certifications, which demonstrate individual knowledge and expertise on the platform:

After you've completed the study materials and gained the necessary skills, the studio would sponsor some certifications each semester. To get into the candidate list please contact the focals.

For more information, please follow up the [original deck](#), which has information about the platform, the certification paths, registration steps and study resources.

> Databricks

Our partnership with **Databricks** grants us access to the latest insights in Data Engineering, Data Science, Business Intelligence, and more through your [Partner Academy website](#).

We have a benefit of 50% discount on most certification exams, which corresponds up to **\$100 discount on the certification vouchers**. As well we have exclusive webinars, tutorials, and hands-on labs. This collaboration enhances our team's skills and keeps us proficient with the latest features and best practices. Ultimately, it empowers us to deliver innovative and cutting-edge solutions to our clients.

For more information, please follow up the [original deck](#) dedicated to this certification path with details about voucher, register user, course, recommended material, etc.
